

INSTALLATION GUIDE FOR AGENT & STUDIO

Standalone License

I. INTRODUCTION

akaBot is at the forefront of transforming the future of *robotic process automation*. The software is designed to serve businesses of different sizes. For businesses who have a high volume of human labor, **akaBot** provides a reliable technology that adds impetus to their innovation and profitability.

This document aims to give you a step-by-step instruction on **how to install akaBot Studio & Agent** for **STANDALONE license**. STANDALONE license is provided through akaBot License Management System and is activated directly without needing akaBot Center.

Once installation is completed, please proceed to activate the platform using the license key provided in our Licensing Email. Detailed instruction on Activation is also attached in Licensing Email.

Thank you and Enjoy automating with akaBot.

1. AKABOT STUDIO	10
2. AKABOT AGENT	10

II. INSTALL AKABOT STUDIO & AKABOT AGENT

Before you start:

1. akaBot Studio & Agent are included in the same installer. By the end of this guideline, you will have both components installed. However, activation will be separate for these components.
2. Please make sure your machine meet the [System Requirements](#).

Step 1: Download Installer

To install the akaBot Studio & akaBot Agent, you will need the installer file in *.msi* or *.exe* format. You can download it from the link provided in the Licensing Email or [here](#).

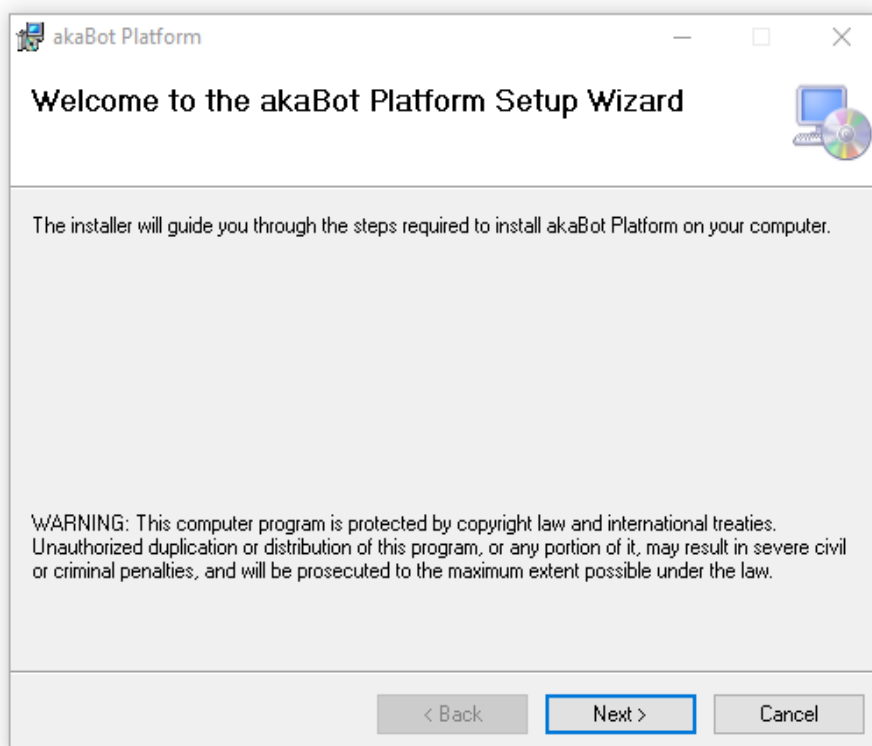

Successful download will lead you to *akaBotPlatform.zip* file.

In this file you will see two versions for akaBot Installer: *64-bit* and *32-bit*. Unzip the appropriate folder to find the *.msi* file.

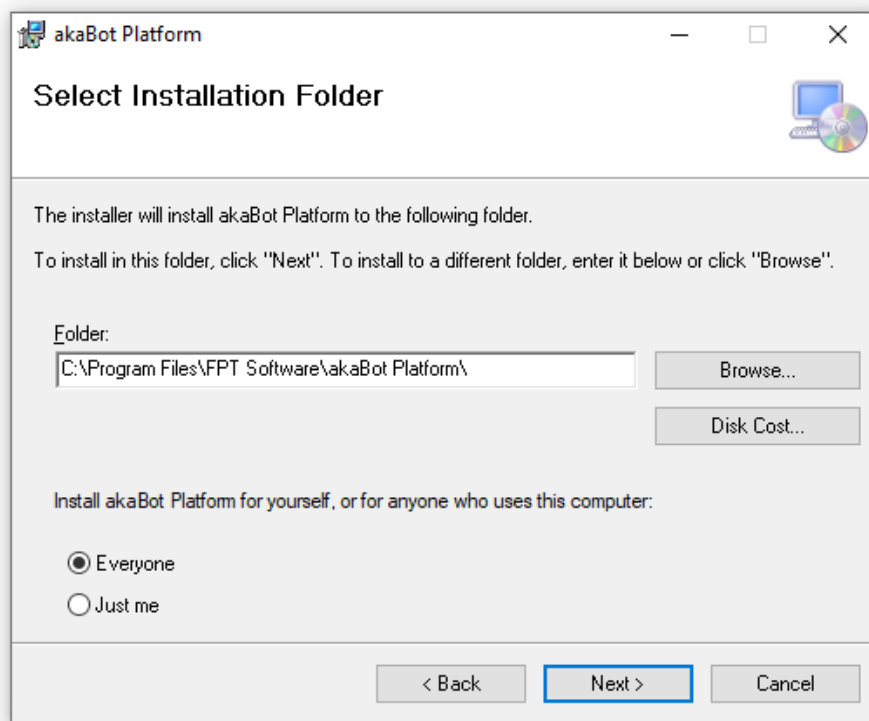

Step 2: Install akaBot platform

Run the Installer. A Setup Wizard will show up as below.

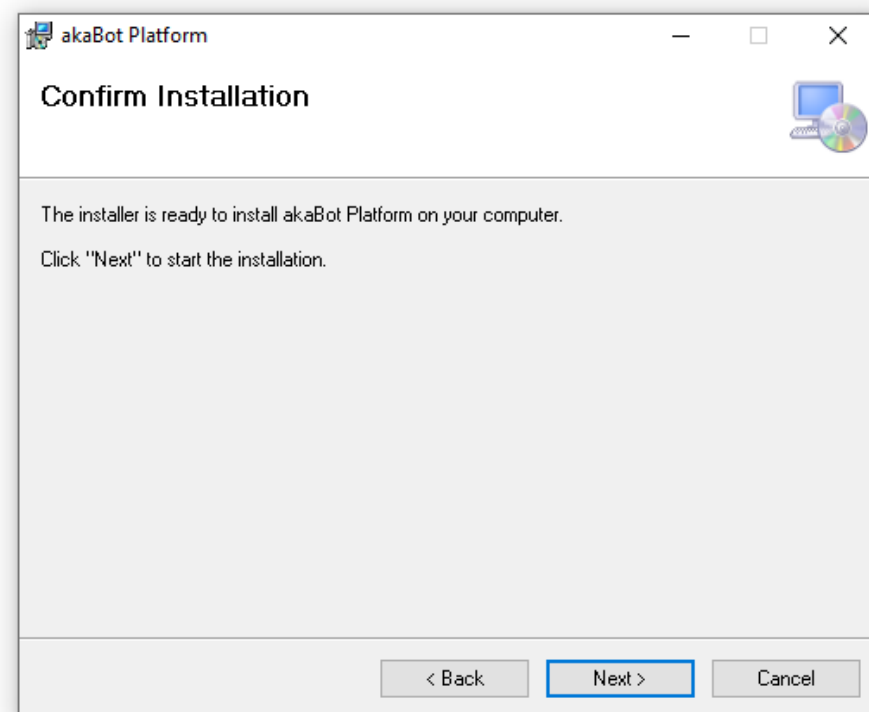

Please follow the steps as specified on the prompt to continue installation process. Simply hit **Next**.

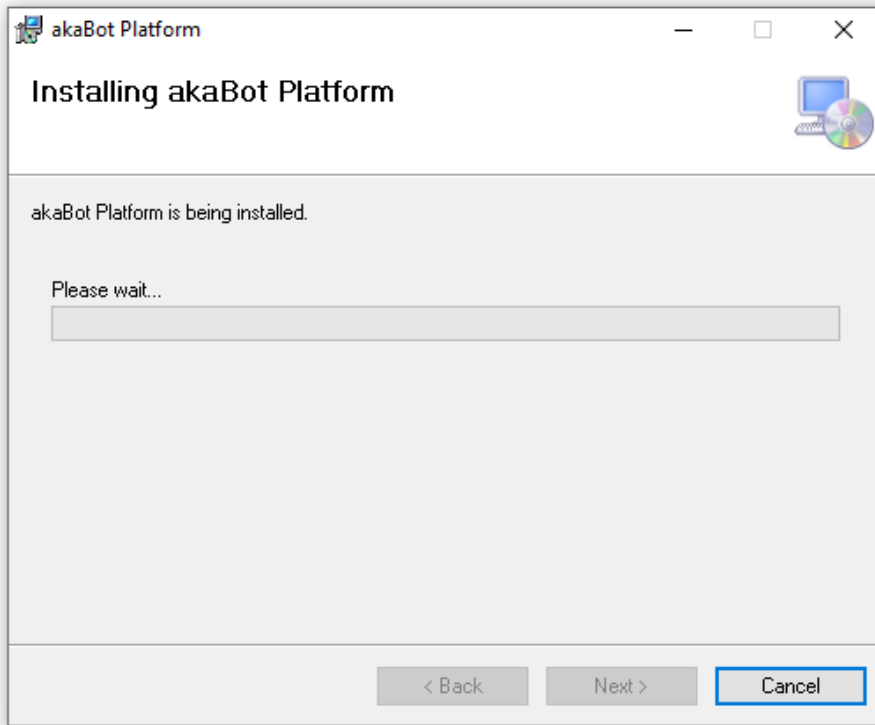

Hit "Next"

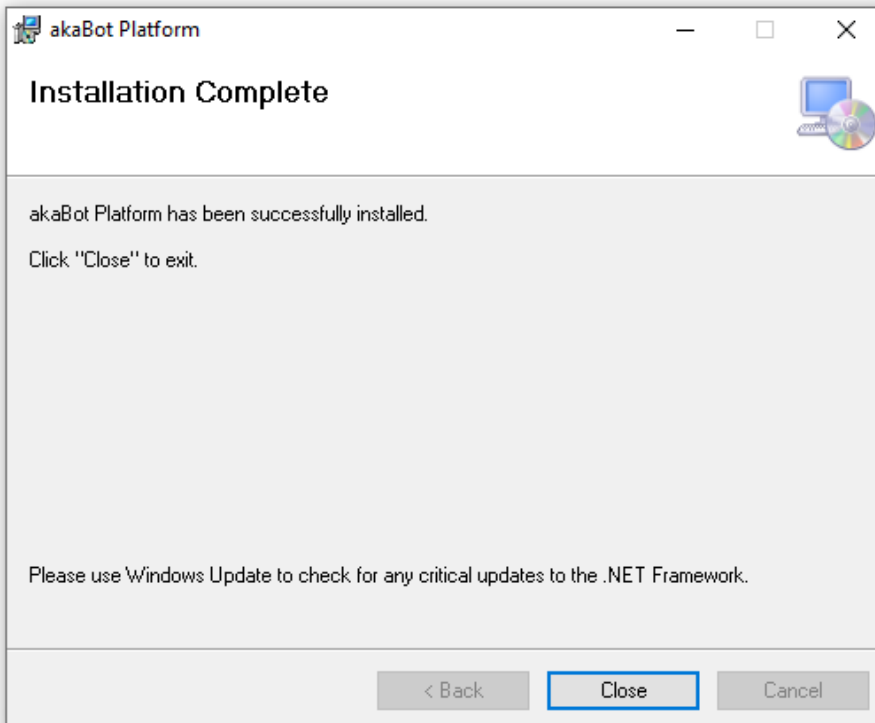

Hit "Next"

This Installation Prompt will show up.

After the installation is done, you will see the **Installation Complete** notification as below. Hit "**Close**". Now you should have the shortcuts for akaBot Studio & Agent successful present on the desktop.

After successful installation, please continue to the activation step.

You can find the **license key** and **activation guide** in the Licensing Email

Please refer to the sample email as below image.

Dear Mr. ABC,

Thank you for your interest in akaBot! Your license request has been approved.

Your license information is as follows:

Step 3: Install web extension (Optional)

To facilitate akaBot's interaction with web applications, you may need to install akaBot extension on your web browser. Please follow the below steps:

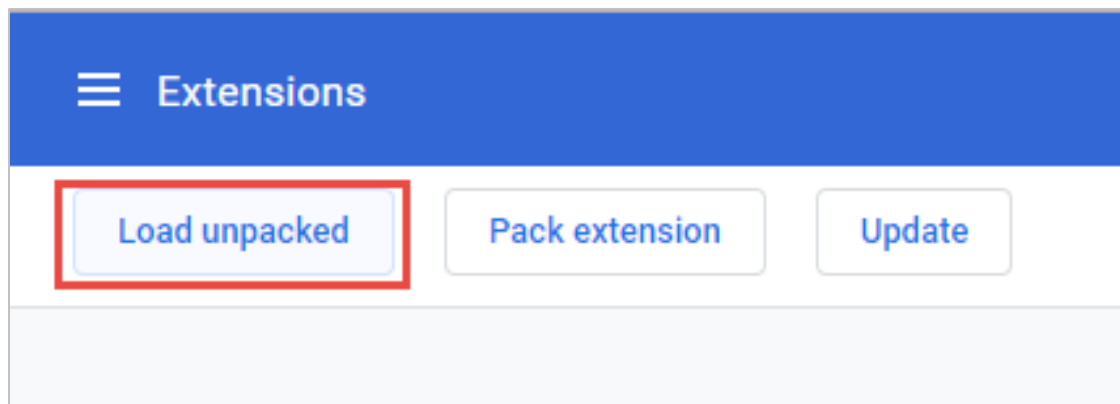

- Open Extensions page on your web browser. *E.g. Chrome*

- Turn on Developer Mode.

- Click on “Load unpacked”

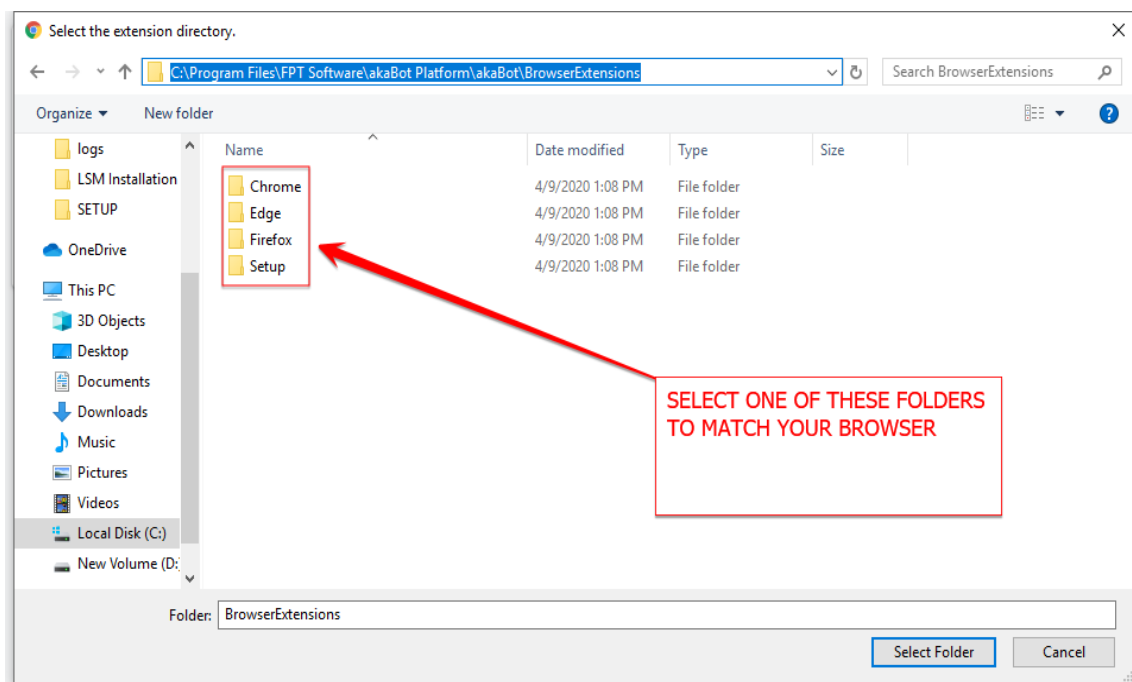

- This will prompt you to Select Extension prompt as below.

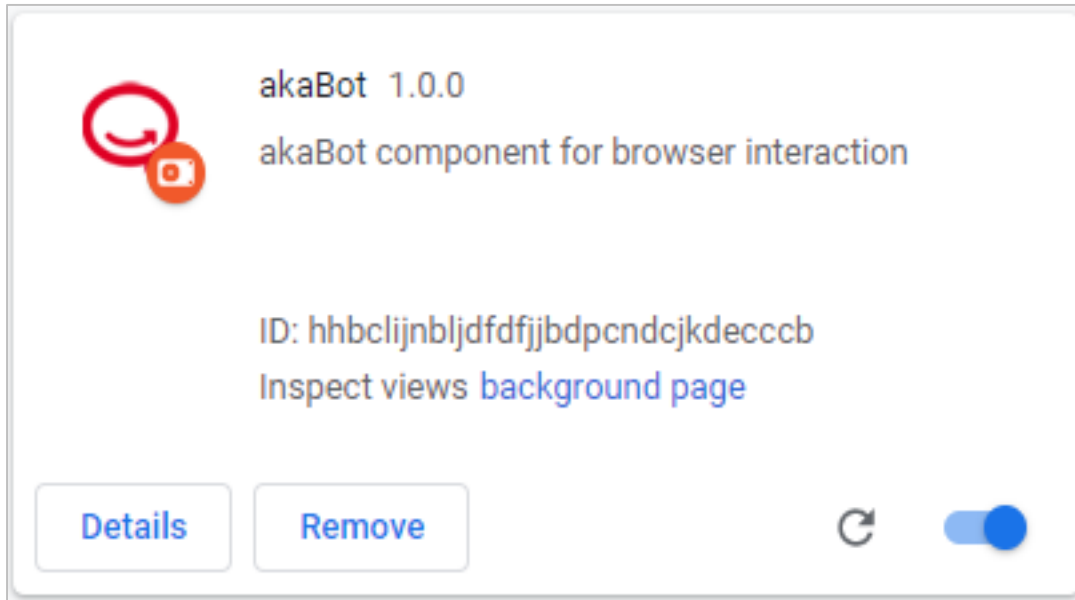

Browse to akaBot BrowerExtentsions folder in **C:\Program Files\FPT**

Software\akaBot Platform\akaBot\BrowserExtensions in a 64-bit system.

- Choose the browser you want to install the extension on. Then click “**Select Folder**” button.

- If you see this confirmation prompt, you have successfully installed akaBot Web Extension.
